Warning:0

The screenshot shows a web browser window with the address bar displaying 'validator.w3.org'. The page title is 'Nu Html Checker'. Below the title, a message states: 'This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change'. The main heading is 'Showing results for contents of text-input area (checked with vnu 25.12.6)'. The 'Checker input' section shows the 'Show' button with 'source' selected, and 'Check by' set to 'text input'. The HTML code being checked is displayed in a text area, starting with the DOCTYPE declaration and the head section. A 'Check' button is located below the code area. Below the code area, a message says 'Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.' with a 'Message Filtering' button. A green banner at the bottom of the checker area states 'Document checking completed. No errors or warnings to show.' Below this, the 'Source' section shows the first few lines of the HTML code being checked.

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for contents of text-input area (checked with vnu 25.12.6)
